Printable Online Birthday Invitations

Printer: A color inkjet printer
Paper: Avery postcard paper #8387
or 8.5 x 11" white cardstock
Envelopes (*opt.*): A-2 size; 5.75" x 4.375"

Important: Before printing invitations, print a test page. Mark an X on the top side of a sheet, insert into printer and print a blank page. Does the X come out face up or face down? Take notice on how your printer handles the paper. This will help to print correctly on both sides.

1. Print front page of invitations first.

2. Re-insert the printed page so that it prints the back on the blank side.

3. If using the Avery postcard paper, fold and tear apart at perforations. If printing on regular cardstock, use a scissors or paper cutter to cut apart the 4 invitations.
